Globe Glue Spreaders are owned by companies who demand quality and desire to obtain even and measured glue spread.

More than 800 are in service.

Globe Glue Spreaders have proven to be successful in spreading top, bottom, or both sides of veneer in varying thicknesses over rough peel and “thick and thin”.

The Globe Spreader is adaptable for use in any lay-up line and has reduced glue line costs and glue waste.

Features & Benefits

Glue Rolls
- Grooved to Specifications
- 60-65 Durometer, Dual Durometer, or Soft Rubber

Glue Roll Bearings
- Ball type, mounted in cast iron housing

Doctor Rolls
- Precision adjustment thru gear drive.
- Simultaneous adjustment of each roll.
- Manual crank or optional air doctoring

Bottom Glue Roll
- Mounted on coil spring for fast recovery and better speed control

Conversions available
- Tank-less
- Drop-down tank

Also available
- Customized outfeeds
